

VAPING COMES WITH HYPE. AND HIDDEN HARMS.

WHAT YOUTH
SHOULD KNOW

MYTH

Vaping is just harmless water vapor.

FACT

What you inhale from a vape isn't "water vapor" but an aerosol packed with harmful chemicals like nicotine, heavy metals, and toxins.

**THE REAL POWER MOVE?
CHOOSE NOT TO VAPE.**

You deserve better than an addiction designed to control you. Protect your brain, your lungs, your money, and your freedom.

Quitting Is the Best Thing You Can Do for Your Health

If you want to quit, support is available.

- Contact the [Smokers' Helpline](#) for free and anonymous support. Call toll-free: 1-877-513-5333 or visit [smokershelpline.ca](#)
